

PARKING REGULATIONS

1. Authorities.

Under the scheme established by the original conveyances of the Estate, the roads, verges, steps and pathways are vested in the Estate Trustees and are privately maintained by the Committee. Vehicles are permitted to use the roads as a means of access to properties and, in law, are permitted to park only with the permission of the Trustees; those who park without permission are trespassers. This is the committee's authority for establishing regulations and for taking sanctions against vehicles that infringe the regulations. These regulations have evolved over many years and reflect the results of a canvass of all residents and the detailed advice of leading Counsel.

2. Policy.

Residents and their guests should be able to park close to their houses or flats and, temporarily by the shops at the bottom of Hillway. Emergency and council vehicles should have adequate access. Unauthorised parking by non-residents should be reduced to negligible levels.
